Microsoft Office	<ul style="list-style-type: none">• Microsoft Word 2007 with Service Pack 2 plus hotfix package 976477 (Word 2007 version number has to be greater than 12.0.6520.4999)• Microsoft Word 2010 (32 bit & 64 bit) <p>Apttus recommends usage of the latest Microsoft Office Suite for the best performance.</p>

Upgrade Notes

After upgrading to this release, it is recommended that you create custom labels for any custom actions; otherwise, buttons will not display on the cart.

For more information on pre and post upgrade, see *Upgrade Information* in the admin guide.

Feature Summary

This release introduces the following update to CPQ:

Agreement-based Renewals

Similar to Opportunity-based renewals, Apttus CPQ supports Agreement-based renewals with a custom setting called **Renewal Business Object Type**. The entire functionality supported with Opportunity object is supported with Agreement object.

Get Started

For details, refer to [Agreement-based Renewals](#) in the admin guide.

Resolved Issues

The following table represents resolved issues in the CPQ Winter 2017 Patch 2 Release on the Salesforce Platform.

Case Number	Description	Apttus Internal ID
CPQ 10.1358.8		
217002	<p>When you have multiple options for products, Apttus CPQ displayed misaligned rows for products and their options on the angular cart.</p> <p>This issue is now resolved. Apttus CPQ displays properly aligned rows for products and their options on the cart.</p>	CPQ-15255
217401	<p>When you apply and remove multiple promotions on the cart, an incorrect Net Price is displayed.</p> <p>This issue is now resolved. Applying and removing multiple promotions on the cart calculates the correct Net Price.</p>	CPQ-15269
217402	<p>When you applied multiple promotions on the cart, the total promotion discount calculated was incorrect on the cart.</p> <p>This issue is now resolved. Applying multiple promotions on the cart calculates the correct total promotion discount.</p>	CPQ-15270

The following issue has been resolved from the previous release.

Apttus Internal ID	Description

Apttus Internal ID	Description
CPQ-15502	If the same promotion is applied at the cart and line item level, when you remove a promotion at the cart level, the corresponding line level promotion is not removed.

Known Issues

The following table represents known issues on the CPQ Winter 2017 Patch 2 Release on the Salesforce Platform.

Apttus Internal ID	Description
ASSETS-1603	When you perform Renew action for a bundle product and deselect an option, incorrect Net Price for option and incorrect rollup price bundle is calculated on the cart.
ASSETS-1636	After you have renewed an asset with a one-time primary line when you perform Change: Config action, an incorrect Delta Price and Net Price is calculated on the cart.
ASSETS-1641	During Terminate action, the system retains originally discounted price for an option product, although the option price got changed on Change action.
ASSETS-1643	For Change: Configuration action on a standalone product, incorrect Net Price is calculated for canceled ramp lines on the cart.
ASSETS-1647	Renewal Quote should drop lines post Change: Config instead of updating on existing Renewal quote as "Changed Config" asset is no longer eligible for further Renew.
ASSETS-1711	Change post renewal on option ramp with "renew one line" shows 2 option lines instead of 1 which was originally renewed.
ASSETS-1724	Config asset pricing criteria is not functioning when single ramp renewed line (renew one ramp = true).

Apttus Internal ID	Description
ASSETS-1753	Post Change: Config action, upgraded one-time lines should accept changes made on the cart though "enable one time change"=false. Upgraded lines are new lines.
ASSETS-1769	Asset Pricing does not work properly for Asset without attributes when asset pricing criteria have some attribute API defined for other assets.
ASSETS-1987	When you create a ramp line, an incorrect sequence of ramp line and of charge type is displayed against the product on the cart.
CPQ-12336	Rollup data get auto-generated when incentives are saved for the first time. You can make additional changes directly on the rollup record. These subsequent changes should not be overwritten when the incentives are saved again.
CPQ-14054	Apttus CPQ applies wrong promotion adjustments to the Base Extended and Extended price of the product.
CPQ-15170	When you add ramp with a price escalator, the added price ramp lines take up the base price of previous ramp line rather than latest one.
CPQ-15298	After you apply a promotion to the product on the cart, the Incentive Code is missing on the cart line item.
CPQ-15353	When you create multiple records for Related Price Line Item (To) related list on a PLI, an error is displayed with zero price on the cart. Also, the corresponding entries are not entered in Custom Settings > Config Related Pricing Group Fields .
CPQ-15364	When you remove multiple records for Related Price Line Item (To) related list on a PLI, the corresponding entries are not removed from Custom Settings > Config Related Pricing Group Fields .

Release Notes

Apttus Internal ID	Description
CPQ-15470	<p>If you clone a proposal with large data, then Apttus CPQ throws the following error:</p> <p><i>Apex heap size too large: 16385451 Error is in expression '{!onLoad}' in page apttus_qpconfig:proposalclone: External entry point</i></p>
CPQ-15521	<p>When you use the CSR flow with Asset Manager button in an account record to view the Installed Products page, the service catalog is displaying zero products under the Relate tab.</p>
CPQ-18587	<p>For the custom setting Related Price Scope set to Cart, adding a bundle containing two options with related pricing calculates an incorrect price for the related option products. This was observed when you add the same bundle twice to the cart.</p>
