About Release Notes

Apttus Release Notes contain the following information about this release:

- [Packages](#) that are required to upgrade to this release
- [System Requirements and Supported Platforms](#) information about the requirements and recommendations that you must consider before you proceed with the installation
- [Resolved Issues](#): Lists issues resolved in this release.
- [Known Issues](#): Lists known issues in the product and workarounds if applicable.

This documentation may contain descriptions of software features that are optional and for which you may not have purchased a license. As a result, your specific software solution and/or implementation may differ from those described in this document. Please contact your CSM or AE for information on your specific features and licensing.

Packages

The following packages and dependent packages are required to upgrade to this release. These are the *minimum* required versions; later versions are also supported. The packages marked as **(New)** are new packages for this release and must be installed to upgrade to this version.

Product	Latest Certified Version
Apttus Approvals Management (Required if you are using Approvals)	8.0.0409 (8.409)

Apttus Proposal Management (Required if you are using Proposal Management)	8.3.0167 (8.167)
Apttus Quote/Proposal Approvals Management	6.5.0004 (6.4)
Apttus Quote/Proposal-Asset Integration	6.5.0014 (6.14)
Apttus Quote/Proposal-Contract Integration	8.1.0049 (8.49)
Apttus Quote/Proposal-Configuration Integration (Required if you are using CPQ and Proposal Management)	10.2.265.1 (10.265.1)

System Requirements and Supported Platforms

The following table lists the minimum requirements for installing and using CPQ.

System Requirements	
Item	Requirement
Operating System	Standard Salesforce.com requirements. See Salesforce PDF .
Browser	<p>Apttus supports the following browsers:</p> <ul style="list-style-type: none"> • Microsoft Edge • Mozilla Firefox • Google Chrome <p>Apttus recommends its customers to use “Edge” as the Microsoft browser of choice when using the angular versions of Apttus CPQ.</p> <p>Note: Internet Explorer is not supported.</p>
Microsoft Office	<ul style="list-style-type: none"> • Microsoft Word 2007 with Service Pack 2 plus hotfix package 976477 (Word 2007 version number must be greater than 12.0.6520.4999) • Microsoft Word 2010 (32-bit & 64-bit) <p>Apttus recommends the latest Microsoft Office Suite for the best performance.</p>

Upgrade Notes

Custom labels for any custom actions

After upgrading CPQ to this release, it is recommended that you create custom labels for any custom actions; otherwise, buttons will not display on the cart.

For more information on tasks to be performed before and after upgrade, see [Upgrade Information](#) in the Administrator guide.

CPQ and Contract Lifecycle Management (CLM) packages with the Lightning upgrade

Until now all Apttus application were of App type **Classic (Managed)** as shown in the following screenshot.

SETUP
Lightning Experience App Manager

New Lightning App

SetupAppMenuItems ▼

50+ items · Sorted by App Name · Filtered by all appmenuitems - TabSet Type

	APP NAME ↑	DEVELOPER NAME	DESCRIPTION	LAST MODIFIE...	APP TYPE
11	Apttus Contract Wizard	ApttusConfigurableWiza...	Contains tabs for Wizar...	8/21/2018 11:18 PM	Classic (Managed)

17	Apttus Product Setup	ApttusProductSetup	Setup and administer p...	10/10/2018 3:04 PM	Classic (Managed)

Although you can set Lightning page layouts for different profiles and record types in the application, you cannot take advantage of that feature if the App Type is **Classic (Managed)**.

To enable Administrator to assign Lightning page layouts for different record types, the current package is upgraded to support the Lightning experience.

After the upgrade, you will see two applications when the Lightning experience is enabled.

19	Apttus Proposal Management (Lightning)	ApttusProposalManagement_Lightning	Enables users to create tailored proposals including pricing & sales content. The right content is automat...	6/5/2018 10:36 PM	Lightning (Managed)

Without Lightning experience, you will see only one application as shown in the following screenshot.

18	Apttus Proposal Management	Apttus Proposal Management	Enables users to create tailored proposals including pricing & sales content. The right content is automatically selected and assembled based upon business rules so that the sales person can quickly get compelling sales proposals to prospects.		
19	Salesforce CRM Content	Salesforce CRM Content			

Resolved Issues

The following table represents the resolved issue in this release.

Case Number	Description	Apttus Internal ID
N/A	Apttus CPQ did not display values in some of the columns in the Cart. However, the values of these columns were stored in the backend. This issue is now resolved. Apttus CPQ displays values in all columns in the Cart.	CPQ-35598

Known Issues

The following table lists known issues in this release.

Apttus Internal ID	Description
ASSETS-1636	After you have renewed an asset with a one-time primary line and if you perform Change: Config action, an incorrect Delta Price and Net Price are calculated on the cart.
ASSETS-1641	During Terminate action, Apttus CPQ retains originally discounted price for an option product, although the option price got changed on Change action.
ASSETS-1647	Renewal Quote should drop lines post Change: Config instead of updating on existing Renewal quote as "Changed Config" asset is no longer eligible for further Renew.
ASSETS-1724	Config asset pricing criteria are not functioning when single ramp renewed line (renew one ramp = true).
ASSETS-1769	Asset Pricing does not work properly for Asset without attributes when asset pricing criteria have some attribute API defined for other assets.
CPQ-7272	Apttus CPQ inadvertently allows you to apply the same coupon code for more than one time in order to give incentives.
CPQ-11829	If the option group is single-select and requires the selection (min:1, max:1), then you cannot make it optional from the configuration page. You can notice the same behavior when the option is required by default.
CPQ-12336	Rollup data get auto-generated when incentives are saved for the first time. You can make additional changes directly on the roll-up record. These subsequent changes should not be overwritten when the incentives are saved again.
CPQ-13730	Promotion is getting applied even for inactive coupons.
CPQ-15170	When you add ramp with a price escalator, the added price ramp lines take up the base price of previous ramp line rather than the latest one.
CPQ-15364	When you remove multiple records for Related Price Line Item (To) related list on a PLI, the corresponding entries are not removed from Custom Settings > Config Related Pricing Group Fields .

Apttus Internal ID	Description
CPQ-15521	When you use the CSR flow with Asset Manager button in an account record to view the Installed Products page, the service catalog is displaying zero products under the Relate tab.
CPQ-33607	If you manually select mandatory options after deselecting them, Apttus CPQ displays an optional checkbox. Ideally, Apttus CPQ hides optional checkboxes for mandatory options.
CPQ-33710	With Allow Manual Adjustment set to False, Apttus CPQ did not allow you to apply adjustment through "multiple adjustment" pop-up.
CPQ-34041	All the cart columns are not properly visible on the cart grid when you use Internet Explorer 11. Note that IE 11 is not supported in this release.
CPQ-34534	The Submit for Approval button is not displayed after the Add to Cart action button.
CPQ-34562	If you set the config system property Enable Base Price Adjustment to True, Net Adjustment % gets impacted by automated price adjustments applied by Price Rule Sets.
CPQ-34774	Deal guidance pop-up does not open when the cart is opened in grouped mode.
CPQ-34896	Apttus CPQ removes the auto-included products when you set fieldset criteria during product configuration.
