In these release notes, you can find packages, requirements, features, enhancements, fixed issues, and known issues for the Configure Price Quote February 24.05.03 release. For documentation updates, see [What's New in Configure Price Quote Documentation](#).

 This documentation may describe optional features for which you have not purchased a license; therefore, your solution or implementation may differ from what is described here. Contact your customer success manager (CSM) or account executive (AE) to discuss your specific features and licensing.

To access the learning path, including overviews and demonstrations of this release's updated features and enhancements, visit the [Conga Learning Center](#).

# Packages

The following packages and dependencies are required to upgrade to this release and use its new features. These are the minimum required versions; later versions are also supported. Prerequisites for each feature can be found in its documentation. Packages marked (New) are new for this release.

**i** You can register your org for Conga Push Upgrade. Conga Push Upgrade is an automated tool that upgrades packages available in your Salesforce org (production or sandbox) to the latest versions. In addition, it ensures that all the Conga published managed packages are on the latest versions for your registered orgs. For more information, see [Registering for Conga Push Upgrade](#).

# System Requirements and Supported Platforms

For requirements and recommendations to consider before installing the Conga product suite, see the [System Requirements and Supported Platforms Matrix](#).

## New Features and Enhancements

The following features are new to Conga Configure Price Quote in this release.

### Currency Display for Deal Guidance Pop-up

Deal guidance pop-up on the cart page now correctly displays currency format for 'Price From' and 'Price To' columns, showing the currency symbol before the values.

### Enhanced Promotion with Bundle Options

Sales representatives can utilize promotions for individual bundle options. In 'Buy X Get Y', if all bundle products are in the cart, the discount applies to the specified product. For 'Buy X Get X', promotions now apply correctly whether sales representatives add bundle and option products together or separately.

## Fixed Issues

The following issues are fixed in this release. If any actions are required, they will be listed in this table.

Case Number	Conga Internal ID	Description
PSTC-3064	CPQ-81028	In the OOTB related line items screen, changing equipment-service association did not display all product details like commercial product description and product code in the service catalog page. This issue affected the visibility of key information during equipment-service association modifications.
PSTC-3077	CPQ-81016	When using the add/remove button to change asset associations with services, if the process was interrupted and revisited, service-related line items displayed missing asset associations.

## Known Issues

The following unresolved issues are known to Conga at the time of this release.

Conga Internal ID	Description
CPQ-81482	When creating a Quick Quote from an opportunity, refreshing the URL triggers the unintended creation of duplicate proposal records.

DOC ID : CPQFEB24PRN20240503
