

# Conga CPQ October23.02.23 Release

## Notes

# Table of Contents

- Packages..... 4
- System Requirements and Supported Platforms.....7
- New Features..... 9
- Enhancements.....10
- Data Model Changes.....11
- Fixed Issues.....12
- Known Issues .....13

In these release notes, you can find packages, requirements, features, enhancements, fixed issues, and known issues for the CPQ October23.02.23 release. For documentation updates, see [What's New in CPQ Documentation](#).

 This documentation may describe optional features for which you have not purchased a license; therefore your solution or implementation may differ from what is described here. Contact your Customer Success Manager (CSM) or Account Executive (AE) to discuss your specific features and licensing.

# Packages

The following packages and dependencies are required to upgrade to this release and use its new features. These are the *minimum* required versions; later versions are also supported. Prerequisites for each feature can be found in its documentation. Packages marked **(New)** are new for this release.

**i** You can register your org for the Conga Upgrade Program. Conga Upgrade Program is an automated tool that upgrades packages available in your Salesforce org (Production or Sandbox) to the latest versions. It ensures all the Conga published managed packages are on the latest versions for your registered orgs. For more information, see [Registering for Conga Upgrade Program](#).

Package	Latest Certified Version Name	Latest Certified Version Number

i For more information on installing Conga managed packages, refer to [Installing CPQ Packages](#). For more information on upgrading Conga managed packages, refer to [Upgrading CPQ](#).

# System Requirements and Supported Platforms

For information pertaining to the requirements and recommendations you must consider before you proceed with the installation of the Conga product, see [System Requirements and Supported Platforms Matrix](#).

## Upgrade Notes

For more information on the prerequisites and post-upgrade tasks, see [Upgrading CPQ](#).

⚠ Before you upgrade the CPQ packages in your org to October '23 release, please note the following points:

- If the CPQ package in your org is on any of the following releases, you must upgrade it to the Winter '20 patch (Winter20.02.26) before upgrading it to October '23 release:

Release	Package
Spring '20 or earlier release	Packages older than <b>12.0.1719</b>   <b>12.1719</b>
Summer '20 patch older than Summer20.02.26	Packages older than <b>12.1.1787.99</b>   <b>12.1787.99</b>
Winter '20 patch older than Winter20.02.26	Packages older than <b>12.2.1839.48</b>   <b>12.1839.48</b>

- If the CPQ package in your org is on any of the following releases, you can directly upgrade it to October '23 release:

Release	Package
Latest Summer '20 patch (Summer20.02.26 or later)	<b>12.0.1719</b>   <b>12.1719</b> or later
Latest Winter '20 patch (Winter20.02.26 or later)	<b>12.2.1839.48</b>   <b>12.1839.48</b> or later
Spring '21 and any Spring '21 patches	<b>13.0.1882</b>   <b>13.1882</b> or later
Summer '21 and any Summer '21 patches	<b>13.1.1921</b>   <b>13.1921</b> or later
December '21 and any December '21 patches	<b>13.2.1969</b>   <b>13.1969</b> or later

Release	Package
May '22 and any May '22 patches	14.0.1995   14.1995 or later
September '22 and any September '22 patches	14.1.2038   14.2038 or later
February '23 and any February '23 patches	15.0.2061   15.2061 or later
June '23 and any June '23 patches	15.1.2090   15.2090 or later
October '23 and any October '23 patches	15.2.2106   15.2106 or later

# New Features

There are no new features in this release.

# Enhancements

There are no enhancements in this release.

# Data Model Changes

There are no data model changes in this release.

## Fixed Issues

The following table lists the issues fixed in this release. If any actions are required, they will be listed in this table.

Case Number	Conga Internal ID	Description
00873421	CPQ-78548	<p>Bundle dates for terms less than or equal to 12 months are not updating correctly, and the Date picker does not display the correct date.</p> <p>The solution works only if all options have Auto Cascade Term set to True. In scenarios where there is a combination of True and False settings, the expected functionality is not achieved. In such cases, the bundle's date range takes precedence over the individual option's date.</p>
00875950	CPQ-78480	When using CPQ Admin UI, the Price Pipeline Ruleset could not be saved if it contained more than eight criteria lines, whereas using Salesforce UI allowed saving with more than eight criteria lines.
00875282	CPQ-78479	When using CPQ Admin UI, the Price Ruleset could not be saved with more than seven criteria lines but could be saved using Salesforce UI.
00868038	CPQ-76923	Inconsistency observed in Constraint Rule execution between Options and Option Groups. Changes in attribute values satisfying CR conditions hide/show Options but not Option Groups.

# Known Issues

The following table provides the cumulative list of known issues up to this release.

Conga Internal ID	Description
CPQ-5402 2	Turbo Integrations: Attribute-based pricing is not working for Numeric Expression.

DOC ID: CPQOCT23PRN20240223
