In these release notes, you can find packages, requirements, features, enhancements, fixed issues, and known issues for the Configure Price Quote October23.04.05 release. For documentation updates, see [What's New in CPQ Documentation](#).

 This documentation may describe optional features for which you have not purchased a license; therefore your solution or implementation may differ from what is described here. Contact your customer success manager (CSM) or account executive (AE) to discuss your specific features and licensing.

To access the learning path, including overviews and demonstrations of this release's updated features and enhancements, visit the [Conga Learning Center](#).

Packages

The following packages and dependencies are required to upgrade to this release and use its new features. These are the minimum required versions; later versions are also supported. Prerequisites for each feature can be found in its documentation. Packages marked **(New)** are new for this release.

i You can register your org for Conga Push Upgrade. Conga Push Upgrade is an automated tool that upgrades packages available in your Salesforce org (production or sandbox) to the latest versions. In addition, it ensures that all the Conga published managed packages are on the latest versions for your registered orgs. For more information, see [Registering for Conga Upgrade Program](#).

Package	Latest Certified Version Name	Latest Certified Version Number

 For more information on installing Conga managed packages, refer to [Installing CPQ Packages](#). For more information on upgrading Conga managed packages, refer to [Upgrading CPQ](#).

System Requirements and Supported Platforms

For requirements and recommendations to consider before installing the Conga product suite, see the [System Requirements and Supported Platforms Matrix](#).

New Features and Enhancements

The following features and Enhancements are new to CPQ in this release.

Enhanced Agreement Creation: Automated Scheduler Integration

Automated Agreement Creation now integrates a scheduler triggering a batch job, with batch size 1, invoking the Accept API from Quote/Proposal intents marked as "Contract". This resolves issues with exceeding queueable job limits during background processing.

Fixed Issues

The following table lists the issues fixed in this release. If any actions are required, they will be listed in this table.

Cas e Num ber	Conga Intern al ID	Description
0088 4449	CPQ-81 088	Syncing agreement with quote proposal now works properly after upgrading CPQ version.
0088 4471	CPQ-81 019	When the Product Attribute Rule was used to exclude the Attribute field, the attribute group remained visible.
0088 2197	CPQ-80 042	When a custom callback class is associated with Product Attribute Values, they do not retain values upon initial setting.
0088 2213	CPQ-80 002	Attachments are not properly attached to emails when sending proposals, leading to incomplete proposal submissions.
0087 9545	CPQ-79 307	When trying to assign collaboration for multiple lines at once, the queue details did not display in the UI when "Product Collaboration" was selected for the second time.
0087 3164	CPQ-78 674	Error encountered when setting up a test class for Display action call.

Known Issues

The following table provides the cumulative list of known issues up to this release.

Conga Internal ID	Description
CPQ-7997 2	When navigating back to the cart page from the price waterfall, the below error occurs. <code>Error: Duplicate id in list.</code>
CPQ-7977 0	When users create an Order from an Agreement using the CreateOrder API, the BillingPlan record from the Agreement is not cascading.

DOC ID: CPQOCT23PRN20240405
