New Features

The following features are new to X-Author for Excel in this release.

New Centralized Admin

X-Author for Excel Designer has been enhanced with the following features grouped under a Centralized Admin. This new centralized admin enables you to configure and administer various settings related to the Designer.
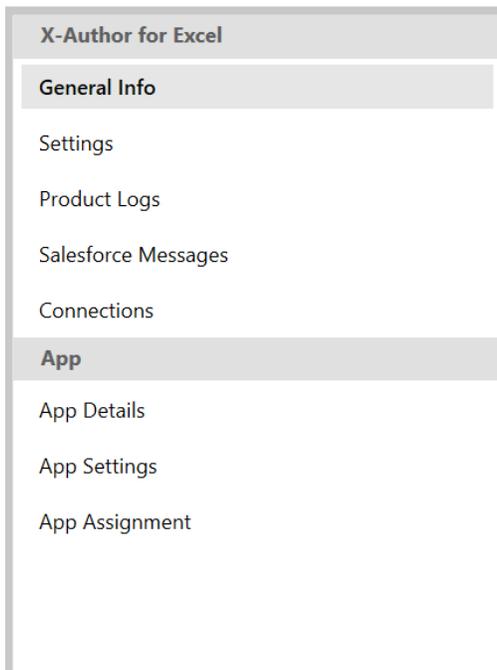

Get Started

For details, see Using Centralized Admin.

Enhancements

This release does not have any enhancements for X-Author for Excel.

Resolved Issues

The following table lists the issues resolved in this release.

Case Number	Apttus Internal ID	Issue Description
CAS-07974-Q9J5V5	AB-3335	Sorting of horizontal Display Maps was not working as designed. This issue is now resolved.
CAS-02615-X6D9S2	AB-3222	In protected sheets inserting a new record by adding rows and clicking on Save, saved the record successfully but unprotected all the sheets. This issue is now resolved.

Known Issues

The following table provides the cumulative list of known issues up to this release.

Apttus Internal ID	Issue Description
Salesforce	
AB-3006	Save map with static by dynamic or dynamic by static matrix components cannot be saved.
AB-3090	Selecting the Disable Rich Text editing checkbox renders the value of the Rich text in the cell. Clearing the Disable Rich Text editing checkbox and clicking the Rich Text field displays Loading of Rich text task pane but does not get loaded.
Microsoft Dynamics	
AB-2999	'OR' condition in filters is not working in Microsoft Dynamics. Workaround: Define filter logic within brackets. Example: (1 OR 2), ((1 AND 2) OR 3), ((1 OR 2) AND 3)
Apttus Omni	
AB-3054	Highlighting unsaved records is not cleared, after rendering records in Apttus Omni.
AB-3068	Show Query Filters in Display action is not working for Apttus Omni.
All Environments	
AB-3162	Mapped record ID for lookahead (Online) does not allow selection of blank value.
