Features and Enhancements

Based on the license you have, you might face some custom tab limit issues. With the Apttus X-Author™ Designer For Excel 1.9 package, you can overcome the custom tab limitations.

To remove the custom tab, the following conditions are applicable:

- If you are installing Apttus X-Author™ Designer For Excel the first time, the custom tab for designer does not appear.
- If you are upgrading to the Apttus X-Author™ Designer For Excel 1.9 package, the system administrator can delete the tab by following the procedure at : https://help.salesforce.com/htviewhelpdoc?id=dev_tabs.htm

Note: To allow the upgrade, you may have to temporarily remove an existing custom tab and add it back after you install the 1.9 Designer package
