ⓘ This documentation may contain descriptions of software features that are optional and for which you may not have purchased a license. As a result, your specific software solution and/or implementation may differ from those described in this document. Please contact your CSM or AE for information on your specific features and licensing.

Packages

The following packages and dependent packages are required to upgrade to this release to utilize all the new features of this release. These are the *minimum* required versions; later versions are also supported. Separate prerequisites for each feature can be found in the respective guides. The packages marked as **(New)** are new packages in this release.

Product	Latest Certified Version *Version Name	Version Number*
X-Author Migration Manager **(New)**	8.2.0514	8.2.0514
Apttus Contract Management	7.255 or later

System Requirements and Supported Platforms

Apttus X-Author Migration Manager is a Microsoft Word Add-In that is accessed via Microsoft Word application on your Windows machine. For the X-Author Migration Manager Add-In to work, the Apttus Contract Management package must be installed in your Salesforce Org. This is required so that the various dialog boxes available in X-Author Migration Manager can display the correct fields. Once this is done by your system administrator, you will be able to install the X-Author Migration Manager Add-In and begin using it.

> ⚠️
> - You cannot use a Mac OS X operating system with X-Author Migration Manager; however, it can be used with a Mac running a Windows Virtual Machine in a Citrix environment.
> - Microsoft's Office 365 Online or Cloud applications do not support plugins; therefore, the Apttus X-Author Migration Manager can only be used in a Windows desktop environment.
> - New features and technologies are continuously deployed in new releases by Apttus X-Author Migration Manager, and they are supported by Apttus where the associated Microsoft OS and/or Microsoft Office versions are also still supported by Microsoft. As Microsoft ends its own support for any OS and/or Office version, subsequent new Apttus releases will no longer be developed, tested, or committed to support the application on any Microsoft OS and/or Office version which is no longer supported by Microsoft.

The following table lists the minimum requirements for installing and using X-Author Migration Manager.

System Requirement	Minimum Supported Version
Windows OS	Windows 10
	Windows 8 & 8.1
	Windows 7
	*X-Author supports both the 32-bit & 64-bit versions of the above Operating Systems.

System Requirement	Minimum Supported Version
Microsoft Office	Desktop version of Office 365 Microsoft Word 2016 or Office 2016 Microsoft Word 2013 or Office 2013 Microsoft Word 2010 or Office 2010 *Where applicable, X-Author supports 32-bit and 64-bit versions of the above applications. **The above versions assume you are using Professional or Enterprise versions of Office. Home & Student or other limited versions of Office are not supported and may or may not prove to be compatible with X-Author Migration Manager. ⚠ Apttus no longer supports Microsoft Word 2007 with X-Author Migration Manager. ⓘ Apttus recommends using the latest Microsoft Office Suite for best performance.
Microsoft .NET	Microsoft .NET Framework 4.5 or higher
Microsoft VSTO	Microsoft Visual Studio 2010 Tools for Office Runtime
Microsoft Office PIA	Microsoft Office 2010 Primary Interop Assemblies
Salesforce	Unlimited, Enterprise, and Developer Product Editions
