# About Release Notes

Apttus Release Notes contain the following information about this release:

- [Packages](#) that are required to upgrade to this release
- [Feature Summary](#): high-level descriptions of new features and enhancements to existing features, with links to Get Started topics to help you set up and use the new feature or enhancement
- [Resolved Issues](#)
- [Known Issues](#)

This documentation may contain descriptions of software features that are optional and for which you may not have purchased a license. As a result, your specific software solution and/or implementation may differ from those described in this document. Please contact your CSM or AE for information on your specific features and licensing.

# Packages

The following packages and dependent packages are required to upgrade to this release to utilize all the new features of this release. These are the *minimum* required versions; later versions are also supported. Separate pre-requisites per feature can be found in the respective guides. The packages marked as **(New)** are new packages in this release.

Product	Latest Certified Version
X-Author Contracts <b>(New)</b>	9.0.0403
Apttus Contract Management	8.7.0368

# Feature Summary

There are no new features for this release.

# Resolved Issues

The following table represents resolved issues in this release:

Case Number	Description	Apttus Internal Id
<b>X-Author Contracts 9.0.0403</b>		
	When a user tried to login into X-Author Contracts in Microsoft Word, script error popped up saying "An error has occurred in the script on this page." This issue has been resolved. The user can now login without any errors popping up.	XA-2358
	User experienced performance issues while using features of X-Author Contracts, like, when the user opened the control panel, or previewed reconciliation, or checked in a document. This issue has been resolved. The user can now use X-Author Contracts without facing any performance issues.	XA-2376

# Known Issues

The following table represents known issues:

Apttus Internal ID	Issue
<b>X-Author Contracts 9.0.0306</b>	
XA-2356	When trying to login into X-Author Contracts in Microsoft Word, script error pops up saying "An error has occurred in the script on this page."
XA-2260	After changing the content of a marked clause and viewing it in control panel by clicking <b>Show Changes</b> , removes one character from the clause in the changes screen.
XA-2307	When a user performs Update from Salesforce action on a generated agreement document which does not have values for the first column of the repeating table, then X-Author Contracts shows a blank screen.
XA-2316	Performing Refresh/ Publish action in a template shifts the header/ footer clause content to the main clause content.
XA-2327	When a user performs reconciliation on checking in an agreement document with multiple instances of a smart field, X-Author updates all the instances of the smart field values to a single value.
XA-2349	On checking in a supporting document template with more than 200 clauses, the clause references disappear from the template document.
CLM-2482	When a user selects an agreement document from the Search by User results while checking out an agreement document in X-Author Contracts, the agreement document fails to check out.

Apttus Internal ID	Issue
<b>X-Author Contracts 8.5.1010</b>	
XA-1931	After checking in a combined document, X-Author ribbon menu items are getting disabled for the original document. Checking out the original document will enable menu items.
XA-1932	When a user attempts to check in a merged document where the original document was non-version-aware, an error is displayed stating that the document is already checked out. The currently recommended workaround is to append the document name at check-in to prevent this error.

This document may describe certain features and functionality of software that Apttus makes available for use under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not, in any form, or by any means, use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part of the software. Reverse engineering, disassembly, decompilation of, or the creation of derivative work(s) from, the software is strictly prohibited. Additionally, this document may contain descriptions of software modules that are optional and for which you may not have purchased a license. As a result, your specific software solution and/or implementation may differ from those described in this document.

## Release Notes

U.S. GOVERNMENT END USERS: Apttus software, including any operating system(s), integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are “commercial computer software” pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

Neither the software nor the documentation were developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Apttus and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Apttus and X-Author are registered trademarks of Apttus and/or its affiliates.

The documentation and/or software may provide links to Web sites and access to content, products, and services from third parties. Apttus is not responsible for the availability of, or any content provided by third parties. You bear all risks associated with the use of such content. If you choose to purchase any products or services from a third party, the relationship is directly between you and the third party. Apttus is not responsible for: (a) the quality of third-party products or services; or (b) fulfilling any of the terms of the agreement with the third party, including delivery of products or services and warranty obligations related to purchased products or services. Apttus is not responsible for any loss or damage of any sort that you may incur from dealing with any third party.
