 If your Salesforce Org contains an unmanaged declaration of the **RevRec Period** Tab, delete the tab before upgrading to the latest package.

Feature Summary

This release introduces the following update:

Enhancements to the Revenue Console

Apttus Revenue Console is now enhanced to run a Batch Job, **CalculateRevConsoleSummaryValueBatchJob** every time you load the Revenue Console. When you load the Revenue Console, the batch job `CalculateRevConsoleSummaryValueBatchJob` starts running in an asynchronous mode. The batch job calculates the Number of Revenue Summary records and stores it in the Custom Property, **Console Rev Summary Count**. This functionality helps in preventing the `Time Limit Exceeded` error that is thrown when you have a large number of an Agreement records in your Salesforce Org.

Get Started

For details on Revenue Console, refer to [Using the Revenue Console](#).

For details on the custom setting, Console Rev Summary Count, refer to [Revenue Agreement Filter Properties](#).

Resolved Issues

The following table represents a resolved issue on release dated: 08 February 2018.

Case Number	Description	Apttus Internal ID
Revenue Management v5.123		
219243	When you tried to access the Revenue Console in a Salesforce Org with a large number of agreement records, Apttus Revenue Management gave the following error: Time Limit Exceeded. This issue is now resolved. You can access the Revenue Console in a Salesforce Org with a large number of agreement records.	REV-370

Known Issues

There are no known issues in this release.
