APTTUS®

Rebate Management on Salesforce Summer 2018 Patch 1 Release Notes

08 October 2018

Table of Contents

About Release Notes

Apttus Release Notes contain the following information about this release:

- Packages that are required to upgrade to this release.
- System Requirements and Supported Platforms information pertaining to the requirements and recommendations that you must consider before you proceed with the installation
- Feature Summary: high-level descriptions of new features and enhancements to existing features, with links to Get Started topics to help you set up and use the new feature or enhancement.
- Data Model Changes from the previous release
- Resolved Issues: Lists issues resolved in this release.
- Known Issues: Lists known issues in the product and workarounds if applicable.

ⓘ   This documentation may contain descriptions of software features that are optional and for which you may not have purchased a license. As a result, your specific software solution and/or implementation may differ from those described in this document. Please contact your CSM or AE for information on your specific features and licensing.

Packages

The following packages and dependent packages are required to upgrade to this release. These are the *minimum* required versions; later versions are also supported. The packages marked as **(New)** are new packages for this release and must be installed to upgrade to this version.

Product	Latest Certified Version
Apttus Rebate Management **(New)**	6.4.0126 (6.126)
Apttus Contract Management	9.0.0393.1 (9.393.1)
Apttus Configuration & Pricing	10.6.1403 (10.1403)
Apttus CPQ API	10.0.0080 (10.80)
Apttus Contract-Configuration Integration	10.1.0103 (10.103)

System Requirements and Supported Platforms

The following table lists the minimum requirements for installing and using Rebate Management.

System Requirements	
Item	**Requirement**
Operating System	Standard Salesforce.com requirements. See Salesforce PDF.
Browser	- Microsoft Edge - Mozilla Firefox - Google Chrome Apttus recommends its customers to use "Edge" as the Microsoft browser of choice. **Note:** Internet Explorer is not supported.
Microsoft Office	- Microsoft Word 2007 with Service Pack 2 plus hotfix package 976477 (Word 2007 version number has to be greater than 12.0.6520.4999) - Microsoft Word 2010 (32 bit & 64 bit) Apttus recommends usage of the latest Microsoft Office Suite for the best performance.

Feature Summary

There are no new features introduced in this release.

Data Model Changes

This release does not entail changes to the data model.

Resolved Issues

The following table list issues resolved in the Rebate Management Summer 2018 Patch 1 release.

Case Number	Description	Apttus Internal ID
NA	While calculating rebate for orders across account hierarchy, the combined value must be considered for evaluating the rebate tier. Rebate Management did not combine the values and select the right tier. This issue is now resolved.	REBATE - 390
NA	When the option to include account hierarchy was yes, there was an error in the rebate calc batch process. This issue is now resolved.	REBATE - 399
NA	Revenue rebate types did not select the correct tier for rate per each tier and highest tier rebates. This issue is now resolved.	REBATE - 401
NA	For multiple external orders, volume rebate types did not select the correct tier for rate per each tier and highest tier rebates. This issue is now resolved.	REBATE - 405

Known Issues

There are no known issues in the Rebate Management Summer 2018 Patch 1 release.
