# About Release Notes

Apttus Release Notes contain the following information about this release:

- [System Requirements and Supported Platforms](#) : information pertaining to the requirements and recommendations you must consider before you proceed with the installation.
- [Feature Summary](#) : high-level descriptions of new features and enhancements to existing features.

# System Requirements and Supported Platforms

Max supports Slack as a communication channel for users. Slack can be used on Mobile, PC's and Mac's.

Salesforce is the current CRM platform supported for this release.

# Feature Summary

The following features are new to Max (version 2.0) Summer 2017 release:

- [Updating Opportunities](#)
- [Combined Instructions](#)
- [Taking Notes for Opportunity](#)

## Updating Opportunities

Max enables you to have a conversation to update any field on your opportunities. This is done securely using authentication via Salesforce. You can update multiple fields with ease during a conversation. You can also update many opportunities in one go. For example, " Update Opportunity ABC with Amount to 100".

## Combined Instructions

During an interactive conversation with Max, you can now save time with combined instructions. For example, "Hi, update Max Test opportunity" combines your following three instructions:

- Greeting Max with "Hi".
- Notifying the task of updating an opportunity ("Update Opportunity").
- Looking for an Opportunity with Name *MAX Test*.

This makes your conversation faster and shorter.

## Taking Notes for Opportunity

Taking notes for an Opportunity is easier with Max. This functionality is helpful for a Sales Representative or a System Administrator to create notes on the fly. The notes can be a reminder to make a call or a meeting summary.

This document may describe certain features and functionality of software that Apttus makes available for use under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not, in any form, or by any means, use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part of the software. Reverse engineering, disassembly, decompilation of, or the creation of derivative work(s) from, the software is strictly prohibited. Additionally, this document may contain descriptions of software modules that are optional and for which you may not have purchased a license. As a result, your specific software solution and/or implementation may differ from those described in this document.

U.S. GOVERNMENT END USERS: Apttus software, including any operating system(s), integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are “commercial computer software” pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

Neither the software nor the documentation were developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Apttus and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.
