### Upgrade Notes

For more information on the prerequisites and post-upgrade tasks, see [Upgrade Information](#) in *Intelligent Workflow Approvals Administrator Guide*.

## New Features

There are no new features in this release. Keep checking the [Apttus Documentation Portal](#) for new updates.

## Enhancements

There are no new enhancements in this release.

## Data Model Changes

This release does not have any data model changes for Digital Commerce.

## Resolved Issues

The following table lists the issue resolved in this release.

Case Number	Apttus Internal ID	Description
00097784	AWA-2132	Assigning an adhoc approval process to any queue automatically got assigned to the backup admin user instead of the queue even if there were valid users in the queue.

## Known Issues

The following table provides the cumulative list of known issues up to this release.

Apttus Internal ID	Issue
AWA-1368	When the same user is assigned as a Backup Admin to an approver and as a parallel Ad hoc approver, the approval request is shown in both the My Approvals tab as well as in the Take Ownership tab.
AWA-1605	Approval Request page is distorted when multiple Delegate IDs are stored in the Delegate Approvers Field.
AWA-1651	When you approve 41 requests simultaneously from the My Approvals page, the approval request takes time and the page hangs.

This document may describe certain features and functionality of software that Apttus makes available for use under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not, in any form, or by any means, use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part of the software. Reverse engineering, disassembly, decompilation of, or the creation of derivative work(s) from, the software is strictly prohibited. Additionally, this document may contain descriptions of software modules that are optional and for which you may not have purchased a license. As a result, your specific software solution and/or implementation may differ from those described in this document.

U.S. GOVERNMENT END USERS: Apttus software, including any operating system(s), integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are “commercial computer software” pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

Neither the software nor the documentation were developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Apttus and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.
