There are no new features in this release.

Enhancements

There are no new features in this release.

Data Model Changes

This release does not have any data model changes for Digital Commerce.

Resolved Issues

The following table lists the issues resolved in this release.

Case Number	Apttus Internal ID	Description
N/A	DC-3762	Users were able to select multiple radio buttons even when the Min/Max was set to 1 on the option group.
N/A	DC-3739	Marking the Attribute Rule to Hidden was not hiding the complete Attribute instead just hid the drop-down value.
N/A	DC-3691	Nested Bundles were not working as expected.
N/A	DC-3644	Product Attribute record was created even when there were no attributes for a Standalone product.

The following table lists the known issue resolved from the previous release.

Apttus Internal ID	Description
DC-3637	Attributes were not displayed for assets on the Installed Products page even though the asset data was available.

Known Issues

The following table provides the cumulative list of known issues up to this release.

Apttus Internal ID	Description
DC-3586	Manual promotion was not automatically removed when you updated the product quantity so that the promotion criteria was no longer fulfilled. This happened specifically when there was only one manual promotion applied.
DC-3833	After auto promotion was applied and removed, you could not apply manual promotion.
