Enhancements

There are no new enhancements in this release.

Data Model Changes

This release does not have any data model changes for Digital Commerce.

Resolved Issues

The following table lists the issues resolved in this release.

Case Number	Conga Internal ID	Description
00110874	DC-6174	The product catalog displayed all the products from the storefront pricelist even though some products were not part of the customer pricelist products. Also, incorrect product price was displayed on the catalog.
00110794	DC-6165	An exception error occurred while placing an order.
00110651	DC-6134	Category hierarchy was not working using the hamburger menu on the left.
00110650	DC-6133	Incorrect pricing was displayed on the cart page.
00109804	DC-6050	CPU timeout error occurred while retrieving large pricelist categories.

The following table lists the known issue resolved from the previous release.

Conga Internal ID	Description
DC-6164	Attribute-Based Value Matrix configurations were applied to expired products.

Known Issues

The following table provides the cumulative list of known issues up to this release.

Conga Internal ID	Description
DC-5903	TurboPricing integration supports up to 20 line items for the price calculation.
