There are no new features in this release. Keep checking the Apttus Documentation Portal for new updates.

# Enhancements

The following enhancement is new to DocuSign for Apttus in this release.

## Apttus User Experience Analysis

With this release, in order to better understand and analyze feature usage and the user experience, Apttus is adding a user experience analysis component to its solution with the assistance of Pendo. The analytics component allows Apttus to tailor improvements and new features to help meet your business requirements and improve the user experience. No action is required on your part and there will be no impact to any existing product features, system functionality, or configured workflows. No personally identifiable information (PII), nor any other proprietary, confidential, or sensitive data will be collected by the analytics component.

 During Apttus Base Library installation, if you see an “Approve Third-Party Access” prompt, this refers to the Apttus User Experience Analysis component. Select the **Yes, grant access to these third-party web sites** check box and click **Continue** to proceed with the installation. For more information, see [Installing DocuSign for Apttus](#).

## Data Model Changes

This release does not have any data model changes for DocuSign for Apttus.

## Resolved Issues
