> ⓘ This documentation may contain descriptions of software features that are optional and for which you may not have purchased a license. As a result, your specific software solution and/or implementation may differ from those described in this document. Please contact your CSM or AE for information on your specific features and licensing.

Packages

The following packages and dependent packages are required to upgrade to this release to utilize all the new features of this release. These are the *minimum* required versions; later versions are also supported. Separate prerequisites for each feature can be found in the respective guides. The packages marked as **(New)** are new packages in this release.

Product	Latest Certified Version (Name | Number)
Adobe Sign **(New)**	22.11
Conga Base Library **(New)**	1.1.93	1.93
Conga Contract Lifecycle Management **(New)**	11.1.0547	11.547
Conga CLM EchoSign Integration **(New)**	8.1.0044	8.44
Conga Quote EchoSign Integration	2.0.0014	2.14
Conga Quote Management **(New)**	10.1.0221	10.221

> ⚠ If you are upgrading the Apttus Contract EchoSign Integration package to the latest version, you must first upgrade the Apttus Contract Management and Adobe Sign packages to the latest version. For more information, see Upgrading Apttus Adobe Sign Services.

> ⓘ Before installing or upgrading Apttus managed packages, you must review the dependency matrix for each managed package. You can refer to the package dependency matrix at Apttus Packages Dependency Matrix.

System Requirements and Supported Platforms

The following table lists the minimum requirements for installing and using Apttus Adobe Sign Services.

System Requirements	
Item	**Requirement**
Operating System	Standard Salesforce.com requirements. See Salesforce PDF.
Browser	Apttus supports the following browsers: • Google Chrome • Microsoft Edge **Note**: Internet Explorer is not supported.
Adobe Sign System Requirements	See System Requirements for Adobe.

New Features

There are no new features in this release. Keep checking the Apttus Documentation Portal for new updates.

Enhancements

The following enhancements are new to Apttus Adobe Sign Services in this release.

- - Support for Document Versioning
  - Apttus User Experience Analysis

Support for Document Versioning

You can send any document (such as generated, regenerated, supporting, imported offline, or manually uploaded) to obtain eSignature using Apttus Adobe Sign Services when Document Versioning is enabled. You can select any document from Files or Notes and Attachments. You can also select the latest document version from the Document Version related list. After the document is electronically signed by one or more recipients, the intermediate or fully signed documents will be updated and saved as a major version under Document Versions related list.

Get Started

For details on sending a document for eSignature, refer to Sending for eSignature in *Apttus Adobe Sign Services on Salesforce Summer 2020 User Guide*.

Apttus User Experience Analysis

With this release, in order to better understand and analyze feature usage and the user experience, Apttus is adding a user experience analysis component to its solution with the assistance of Pendo. The analytics component allows Apttus to tailor improvements and new features to help meet your business requirements and improve the user experience. No action is required on your part and there will be no impact to any existing product features, system functionality, or configured workflows. No personally identifiable information (PII), nor any other proprietary, confidential, or sensitive data will be collected by the analytics component.

> ⚠ During Apttus Base Library installation, if you see an "Approve Third-Party Access" prompt, this refers to the Apttus User Experience Analysis component. Select the **Yes, grant access to these third-party web sites** check box and click **Continue** to proceed with the installation. For more information, see Installing Apttus Adobe Sign Packages.

Data Model Changes

There are no data model changes in this release.

Resolved Issues

There are no resolved issues in this release.

Known Issues

There are no known issues in this release.
