 - [Known Issues](#): Lists known issues that are applicable in this release

 This documentation may contain descriptions of software features that are optional and for which you may not have purchased a license. As a result, your specific software solution and/or implementation may differ from those described in this document. Please contact your CSM or AE for information on your specific features and licensing.

Packages

The following packages and dependent packages are required to upgrade to this release to utilize all the new features of this release. These are the *minimum* required versions; later versions are also supported. Separate prerequisites for each feature can be found in the respective guides. The packages marked as **(New)** are new packages in this release.

Product	Latest Certified Version (Name Number)
Conga Base Library (New)	1.0.40.4 1.40.4
Conga Content Integration	6.3.0012 6.12
Conga Contract Lifecycle Management (New)	11.0.0519.10 11.519.10
Conga DocuSign API <i>(Required if you are using DocuSign)</i>	6.0.0093 6.93
Conga CLM DocuSign Integration <i>(Required if you are using DocuSign)</i>	3.2.0038 3.38
Adobe Sign <i>(Required if you are using Adobe Sign)</i>	21.5.11 21.5.11
Conga CLM EchoSign Integration <i>(Required if you are using Adobe Sign)</i>	8.0.0035.2 8.35.2

 If you have activated Salesforce critical update—**Enable Improved Caching of Org Schema**, you need to upgrade to this release to avoid encountering any errors.

i Before installing or upgrading Conga managed packages, you must review the dependency matrix for each managed package. You can refer to the package dependency matrix at [Packages Dependency Matrix](#).

To support the File type of document generated, if users check-in and check-out documents from X-Author Contracts, they must use X-Author Contracts V9.1.0430 and later versions.

The template of Pre FX2 format does not support the File type of document generated regardless of the X-Author Contracts version.

System Requirements and Supported Platforms

Conga Contract Management is a web-based, on-demand application that is accessed via a standard web browser through the Internet. Before you install and start using Conga Contract Management, you must ensure the minimum system requirements.

System Requirements	
Item	Requirement
Operating System	Standard Salesforce.com requirements.
Browser	<p>Conga supports the following browsers:</p> <ul style="list-style-type: none"> • Google Chrome • Microsoft Edge <p>Conga recommends the latest stable version of the browser for the best performance.</p> <div style="border: 1px solid #ffc107; padding: 5px; margin-top: 10px;"> <p> Internet Explorer is not supported.</p> </div>
Microsoft Office	<ul style="list-style-type: none"> • Microsoft Word 2007 with Service Pack 2 plus hotfix package 976477 (Word 2007 version number must be greater than 12.0.6520.4999) • Microsoft Word 2010 (32 bit & 64 bit) or Office 2010 (32 bit & 64 bit) • Microsoft Office 2019, 2016, 2013, and desktop version of Office 365 <div style="border: 1px solid #6c757d; padding: 5px; margin-top: 10px;"> <p> Conga recommends the latest Microsoft Office Suite for the best performance.</p> </div>

New Features

There are no new features in this release. Keep checking the Conga Documentation Portal for new updates.

Enhancements

There are no new enhancements in this release.

Data Model Changes

There are no data model changes in this release.

Resolved Issues

The following table lists the issues resolved in this release.

Case Number	Conga Internal ID	Description
00104730	CLM-6480	<p>When a wizard had a combination of <i>Set this control value</i> and <i>Hide this control</i> input rules, the control value was not set after creating an agreement from the wizard.</p> <p>Resolution: When you set APTS_WizardPersistHiddenValue to true and you run a wizard containing a field that has a combination of <i>Set this control value</i> and <i>Hide this control</i> input rules, the field value is set in the object you are creating. For more information, see Admin Entries and Configuring Step Input Rules from the Wizard Designer in <i>Contract Management on Salesforce Spring 2020 Administrator Guide</i>.</p>
00103803	CLM-6441	On running a wizard in Salesforce Lightning, the correct picklist values were not displayed as per the record type of the wizard.
NA	CLM-6428	When there were more than two hundred thousand users in an org, a user was unable to create an agreement record.

The following table lists the known issue resolved from the previous release.

Conga Internal ID	Description
CLM-5898	The help icon for checkboxes and multi-select picklist was displayed below the field name.

Known Issues

The following table provides the cumulative list of known issues up to this release.

Conga Internal ID	Description
CLM-5988	When you use a checkbox object field in input rules condition, checked and unchecked options are not visible.
CLM-5917	If Set This Control Value rule is set on an input field, you cannot modify the input in the wizard.
CLM-5976	When you open a wizard in the Classic mode with rules on a Lookup field, you encounter an error.
CLM-5367	The console app tab remains open on canceling sending for signatures and review.
CLM-5207	The console app displays the Generate button even after the user has generated the document.
XA-2718	On Partner Community portals, when you try to upload an offline agreement or check in an existing template to agreements in FX2 format from X-Author Contracts, an error message is displayed for version-aware and non-version-aware file or attachment type document.
CLM-3212	The Work Order custom object is not enabled for a template object of the Pre FX2 format.
CLM-3211	Agreement flow does not work for Communities in the Salesforce Lightning mode.
CLM-2730	In the Salesforce One app, when a user clicks the Agreement Actions from the Action panel once, the user stays on the same page. To go to the next page, the user must click twice. This is a Salesforce limitation for embedded Visualforce pages.
CLM-2690	In the Salesforce One app, clicking the lookup option does not open a new pop-up window.
CLM-2440	After an agreement document is sent for review, the activity history does not record details for any of the attachments.
CLM-2416	Entries on the Master Agreement Clauses listing are showing an incorrect timestamp.
CLM-2319	When a user uses the type-ahead search feature in the Wizard Component Library, the resultant text is sometimes deleted as it is being typed.
