About Release Notes

Apttus Release Notes contain the following information about this release:

- [Packages](#): Lists the packages that are required to upgrade to this release.
- [System Requirements and Supported Platforms](#): Information pertaining to the requirements and recommendations you must consider before you proceed with the installation.
- [Feature Summary](#): High-level descriptions of new features and enhancements to existing features, with links to Get Started topics to help you set up and use the new feature or enhancement.
- [Data Model Changes](#): Lists the changes to the data model.
- [Resolved Issues](#): Lists issues resolved in this release.
- [Known Issues](#): Lists known issues in the product and workarounds if applicable.

 This documentation may contain descriptions of software features that are optional and for which you may not have purchased a license. As a result, your specific software solution and/or implementation may differ from those described in this document. Please contact your CSM or AE for information on your specific features and licensing.

Packages

The following package and dependent package are required to upgrade to this release to utilize all the new features of this release. This is the *minimum* required version; later versions are also supported. Separate pre-requisites per feature can be found in the respective guides. The package marked **(New)** is the new package in this release.

Product	Latest Certified Version (Name Number)
Apttus Contract Management (New)	9.2.0417.6 9.417.6 <div data-bbox="695 663 1456 961" style="border: 1px solid #ccc; padding: 10px;"><p>Note</p><p>To support the File type of document generated, if users check in and check out documents from X-Author Contracts, they must use X-Author Contracts V9.1.0430 and later versions.</p><p>The template of <i>Pre FX2</i> format does not support the File type of document generated regardless of the X-Author Contracts version.</p></div>

System Requirements and Supported Platforms

Apttus Contract Management is a web-based, on-demand application that is accessed via a standard web browser through the Internet. Before you install and start using Apttus Contract Management, you must ensure the minimum system requirements.

System Requirements	
Item	Requirement
Operating System	Standard Salesforce.com requirements. See Salesforce PDF .
Browser	<p>Apttus Contract Management supports the most recent stable versions of the following browsers:</p> <ul style="list-style-type: none"> • Google Chrome™ • Mozilla Firefox™ • Microsoft Edge™ • Apple Safari™ <div style="border: 1px solid #ccc; padding: 5px; margin-top: 10px;"> <p> Note Internet Explorer is not supported.</p> </div>
Microsoft Office	<ul style="list-style-type: none"> • Microsoft Word 2007 with Service Pack 2 plus hotfix package 976477 (Word 2007 version number must be greater than 12.0.6520.4999) • Microsoft Word 2010 (32 bit & 64 bit) or Office 2010 (32 bit & 64 bit) • Microsoft Word 2013 (32 bit & 64 bit) or Office 2013 (32 bit & 64 bit)

Feature Summary

This release does not have any new features or enhancements.

Data Model Changes

This release does not entail changes to the data model.

Resolved Issues

The following table represents the resolved issues in this release.

Case Number	Description	Apttus Internal ID
CAS-06748-Y3W2D0	<p>The Set Custom Value rule field values were updating the radio button control to an invalid value when the rule criteria were fulfilled and due to which Wizard radio button was resetting to blank at runtime.</p> <p>This issue is now resolved.</p>	CLM-3333
00219791	<p>On attaching a file in the Legacy Wizard, the first three values were reset to blank. When the user re-entered the first three values again in the Legacy Wizard, the values were retained.</p> <p>This issue is now resolved.</p>	CLM-2876
CAS-06049-M4X2W7	<p>On implementing the Enable Files feature from Comply System properties, the generated or regenerated document was not visible in the Document Finder to users who did not have access to the document.</p> <p>This issue is now resolved.</p>	CLM-3308
N/A	<p>An error was displayed after completing the following procedure:</p> <ol style="list-style-type: none"> 1. Add an attachment to a field with more than 80 characters. 2. Activate the wizard. 3. Run the wizard. 4. Add comments for the attachment. 5. Click Next. <p>This issue is now resolved.</p> <div style="border: 1px solid #f0e68c; padding: 10px; margin-top: 10px;"> <p> A title with more than 80 characters is not allowed. The title with more than 80 characters is truncated. (This is a salesforce limitation.)</p> </div>	CLM-3346

Known Issues

The following table represents the known issues in this release.

Aptus Internal ID	Description
CLM-2824	When a user performs agreement actions on an agreement with an attachment size more than 6 MB, heap size exception is observed. This is observed only in a few scenarios.
XA-2718	On Partner Community portals, when you try to upload an offline agreement or check in an existing template to agreements in FX2 format from X-Author Contracts, an error message is displayed for version-aware and non-version-aware file or attachment type document.
CLM-3334	Selecting the Fill in form fields protection level is generating read-only documents with non-editable fields.
CLM-3212	The Work Order custom object is not enabled for a template object of the Pre FX2 format.
CLM-3211	Agreement flow does not work for Communities in the Salesforce Lightning mode.
CLM-2730	In Salesforce One app, when a user clicks the Agreement Actions from the Action panel once, the user stays on the same page. To go to the next page, the user must click twice. This is a Salesforce limitation for embedded Visualforce pages.
CLM-2690	In Salesforce One app, clicking the lookup option does not open a new pop-up window.
CLM-2440	After an agreement document is sent for review, the activity history does not record details for any of the attachments.
CLM-2416	Entries on the Master Agreement Clauses listing are showing an incorrect timestamp.
CLM-2319	When a user uses the type-ahead search feature in the Wizard Component Library, the resultant text is sometimes deleted as it is being typed.
