About Release Notes

Apttus Release Notes contain the following information about this release:

- [Packages](#) that are required to upgrade to this release
- [Resolved Issues](#)
- [Known Issues](#)

This documentation may contain descriptions of software features that are optional and for which you may not have purchased a license. As a result, your specific software solution and/or implementation may differ from those described in this document. Please contact your CSM or AE for information on your specific features and licensing.

Packages

The following packages and dependent packages are required to upgrade to this release to utilize all the new features of this release. These are the *minimum* required versions; later versions are also supported. Separate pre-requisites per feature can be found in the respective guides. The packages marked as **(New)** are new packages in this release.

Product	Latest Certified Version
Aptus Contract Management (New)	8.8.0377 (8.377)

Resolved Issues

The following table represents the resolved issue in this release:

Case Number	Description	Apttus Internal ID
212881	User was not able to send an agreement for review, when using Contract Management in a mobile browser. This issue has been resolved.	CLM-2683

The following table represents the issue resolved from the previous release:

Case Number	Description	Apttus Internal ID
200863	When a user added text in the comments box associated with the Attachments and Comments section, the user got an error or the Wizard hanged. This issue has been resolved.	CLM-2249

Known Issues

The following table represents known issues:

Apttus Internal ID	Issue
CLM-2690	In Salesforce One app, clicking the lookup option doesn't open a new pop-up window.
CLM-2440	After an agreement document is sent for review, the activity history does not record details for any of the attachments.
CLM-2416	Entries on the Master Agreement Clauses listing are showing an incorrect time stamp.
CLM-2319	When a user uses the type ahead search feature in the Wizard Component Library, text is sometimes deleted as it is being typed.
CLM-2317	After entering text into a field, clicking to the next field loses focus, forcing the users to click inside the boundary of the comments field for a second time to complete the task. Current workaround is to use the tab key to move to the next field.
CLM-2301	When entering text into a comments field in Wizard runtime, the field loses focus, forcing the user to click inside the boundary of the comments field a second time to complete the task.
CLM-2300	The red line denoting a field is required in Wizard runtime is exceeding the height of the input boundaries for all Agreement object fields.

Release Notes

No part of this document, or any information linked to or referenced herein, may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written consent of Apttus. All information contained herein is subject to change without notice and is not warranted to be error free.

This document may describe certain features and functionality of software that Apttus makes available for use under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not, in any form, or by any means, use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part of the software. Reverse engineering, disassembly, decompilation of, or the creation of derivative work(s) from, the software is strictly prohibited. Additionally, this document may contain descriptions of software modules that are optional and for which you may not have purchased a license. As a result, your specific software solution and/or implementation may differ from those described in this document.

U.S. GOVERNMENT END USERS: Apttus software, including any operating system(s), integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are “commercial computer software” pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

Neither the software nor the documentation were developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Apttus and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Apttus and X-Author are registered trademarks of Apttus and/or its affiliates.

The documentation and/or software may provide links to Web sites and access to content, products, and services from third parties. Apttus is not responsible for the availability of, or any content provided by third parties. You bear all risks associated with the use of such content. If you choose to purchase any products or services from a third party, the relationship is directly between you and the third party. Apttus is not responsible for: (a) the quality of third-party products or services; or (b) fulfilling any of the terms of the agreement with the third party,

including delivery of products or services and warranty obligations related to purchased products or services. Apttus is not responsible for any loss or damage of any sort that you may incur from dealing with any third party.
