Resolved Issues

The following table represents resolved issues in this release:

Case Number	Description	Apttus Internal ID
Contract Management- 8.368.3		
204981	• When the CLM Administrator set the **Allow Override (Watermark)** checkbox unchecked on the **Setup Agreement Document Output Formats** page, for any Profile Level and then clicked Save, the changes were not saved. This issue has been resolved. The preferences set in Setup Agreement Document Output Formats page are saved now. • When the CLM Administrator set the **Include Watermark** and **Allow Override (Watermark)** checkboxes unchecked on the **Setup Agreement Document Output Formats** page and furthermore had selected any value from the **Allowable Output Formats** picklist on the agreement record, then the users of specific profiles were presented with, and could select the **Include Watermark** checkbox on the template selection page. The org-wide settings set from **Setup Agreement Document Output Formats** page were not respected. This issue has been resolved. Preferences set in **Agreement Document Output Formats** for the value and ability to show or hide **Include Watermark** checkbox are now respected.	CLM-2462

Case Number	Description	Apttus Internal ID
	Users experienced regression issues while generating documents, on the records that satisfied a few combinations of preferences saved in **Setup Agreement Document Output Formats**. Observed issues were as follows: On agreement generation, system did not display output format values for the user to choose from; Output format values were displayed with no option pre-selected, and user got null pointer exception on generate action, or; Document was generated with the file extension .prompt These issues have been resolved.	CLM-2576

Known Issues

The following table represents the known issues:

Apttus Internal ID	Issue
Contract Management- 8.368	
CLM-2482	When a user selects an agreement document from the Search by User results while checking out an agreement document in X-Author Contracts, the agreement document fails to check out.
CLM-2440	After an agreement document is sent for review, the activity history does not record details for any of the attachments.
CLM-2249	On adding text in the comments box associated with the Attachments and Comments section, the user gets an error or the Wizard hangs.
Contract Management- 8.359	
CLM-2416	Entries on the Master Agreement Clauses listing are showing an incorrect time stamp.
CLM-2419	When a user attempts to edit a step input rule using the Wizard Designer, an error is thrown, preventing the user from editing the rule.
Contract Management- 8.354	
CLM-2296	During Send for Review, if a user has Internet Explorer, email template contents displayed in the scrolling window on the Edit Email page do not show enough of the template to provide an adequate preview.

Apttus Internal ID	Issue
CLM-2300	The red line denoting a field is required in Wizard runtime is exceeding the height of the input boundaries for all Agreement object fields.
CLM-2301	When entering text into a comments field in Wizard runtime, the field loses focus, forcing the user to click inside the boundary of the comments field a second time to complete the task.
CLM-2317	After entering text into a field, clicking to the next field loses focus, forcing the users to click inside the boundary of the comments field for a second time to complete the task. Current workaround is to use the tab key to move to the next field.
CLM-2319	When a user the type ahead search feature in the Wizard Component Library, text is sometimes being deleted as it is being typed.
