Upgrade Notes

Upgrading to the Spring 2019 version of Apttus Billing Management results in the following:

- The Payment Status and Applied Amount of the approved credit memos is updated based on Source Related A/R Transaction records of the credit memo. For each approved credit memo, the Applied Amount is updated to match the total of all the Txn Amount of all Source Related A/R Transaction records and the payment status is updated accordingly.
- Type field of each Invoice having Type as Null is updated. For each invoice, if Source Invoice ID exists, the Type is set to Split. If Source Invoice ID is null, the Type is set to ABO Charges.
- Type field of each Credit Memo having Type as Null is updated. For each credit memo, if Invoice Id is null, the Type is set to ABO Credit. If Invoice ID is not null and Reason Code is equal to Wallet Application, the Type is set to Wallet Credit. If Invoice ID is not null and Reason Code is not equal to Wallet Application, the Type is set to Manual Credit.

After upgrading to latest version of the Apttus Billing Management, for the Category field of Billing Schedule object, add the following pick-list options:
