Apttus Proposal Management	8.2.0148   8.148
Apttus Contract Management	8.5.0377   8.377

# System Requirements and Supported Platforms

Apttus Billing Management is native to Salesforce platform. If your browser supports Salesforce Classic view, you will have no compatibility issues running the Apttus Billing Management.

## Browser Support

Salesforce Classic view is compatible with the following browsers:

- Microsoft® Internet Explorer® versions 9, 10, and 11
- Apple® Safari® versions 5.x, 6.x, and 7.x on Mac OS X
- Microsoft® Edge for Windows® 10.

The most recent stable versions of Mozilla® Firefox® and Google Chrome™ are also supported. Please verify your browser versions before installing the Billing package.

# Feature Summary

This release introduces the following updates.

- [Callback Interface to email Invoices to a custom set of contacts](#)
- [Callback Interface to email Credit Memos to a custom set of contacts](#)

## Callback Interface to email Invoices to a custom set of contacts

A new callback class is introduced to deliver Invoice emails along with an attachment to a custom set of contacts. This functionality allows you to override the contact information mentioned in the Account Location or Account.

You can add your custom logic in a new Apex class and specify the class name in **Billing Custom Classes > Email Invoice Attachment Callback Class**.

### Get Started

For details on Email Invoice Attachment Callback Class, refer to [Email Invoice Attachment Callback Class](#).

## Callback Interface to email Credit Memos to a custom set of contacts

A new callback class is introduced to deliver Credit Memo emails along with an attachment to a custom set of contacts. This functionality allows you to override the contact information mentioned in the Account Location or Account.

You can add your custom logic in a new Apex class and specify the class name in **Billing Custom Classes > Email Credit Memo Attachment Callback Class**.

# Resolved Issues

The following table represents issues resolved in this release.

Case Number	Description	Apttus Internal ID
<b>Billing v4.109</b>		
209678	<p>While initiating Invoice Runs, inactive templates were also available in the <b>Override Template</b> picklist to choose from.</p> <p>This issue is now resolved. Only active templates are available in the <b>Override Template</b> picklist while initiating Invoice Runs.</p>	BIL-1384
	<p>Cancellation of an asset with a <i>fractional</i> selling term and <b>Price Type</b> as <i>One Time</i> created billing schedule with an incorrect net price.</p> <p>This issue is now resolved. Cancellation of an asset with a fractional selling term and <b>Price Type</b> as <i>One Time</i> gives the correct net price.</p>	BIL-1393
216200	<p>When a user tried asset operations such as amendments or cancellations with an option product, Billing Management system gave an error. The error was observed especially in a case when the billing admin had selected <b>Do Not Create Informational</b> in the Billing Preference.</p> <p>This issue is now resolved. You can perform asset operations such as amendments or cancellations with an option product with <b>Do Not Create Informational</b> selected in the Billing Preference.</p>	BIL-1400

## Known Issues

There are no known issues in this release.
