## About Release Notes

Apttus Release Notes contain the following information about Merge Service Spring 2019 Release on Salesforce. All implementations will need to have the Comply System properties, however, unless you have installed the Apttus Proposals Management package you do not need Proposal System properties.

- **Packages:** Lists packages that are required to upgrade to this release of the product
- **New Features:** Provides high-level descriptions of new features introduced in this release, with links to more detailed information
- **Enhancements:** Provides high-level descriptions of enhancements to existing features
- **Resolved Issues:** Lists customer-reported issues that are resolved in this release or known issues resolved from previous releases
- **Known Issues:** Lists known issues that are applicable in this release

 This documentation may contain descriptions of software features that are optional and for which you may not have purchased a license. As a result, your specific software solution and/or implementation may differ from those described in this document. Please contact your CSM or AE for information on your specific features and licensing.

## Packages

The following packages and dependent packages are required to upgrade to this release to utilize all the new features of this release. These are the *minimum* required versions; later versions are also supported. Separate prerequisites for each feature can be found in the respective guides. The packages marked as **(New)** are new packages in this release.

Product	Latest Certified Version <i>Version Name (Version Number)</i>
Apttus Merge Service <b>(New)</b>	5.5.0.325

## Prerequisite

The following configurations allow you to change your Merge Service or remote site settings:

### To change your Merge Service setting

- For Comply System Properties

1. Go to **Setup à App Setup à Develop à Custom Settings**.
2. Click **Manage** for **Comply System Properties**.
3. Click **System Properties** and the **Merge Webservice Endpoint** setting is displayed.
4. Change the setting to the URL listed above or another URL provided by Apttus and click **Save**.

- For Proposal System Properties

1. Go to **Setup à App Setup à Develop à Custom Settings**.
2. Click **Manage** for **Proposal System Properties**.
3. Click **System Properties** and the **Merge Service Endpoint** setting is displayed.
4. Change the setting to the URL listed above or another URL provided by Apttus and click **Save**.

### To change your Remote Site setting

1. Go to **Setup à Security Controls à Remote Site Settings**.
2. Click **Edit** for **ApttusMergeServer**.
3. Change the **Remote Site URL** to the URL listed above or another URL provided by Apttus and click **Save**.
4. Click **Save**.

 If you would like to be engaged in our Pre-Release program for Merge Service, please reach out to your assigned CSM for details.

No part of this document, or any information linked to or referenced herein, may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written consent of Apttus. All information contained herein is subject to change without notice and is not warranted to be error free.

This document may describe certain features and functionality of software that Apttus makes available for use under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not, in any form, or by any means, use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part of the software. Reverse engineering, disassembly, decompilation of, or the creation of derivative work(s) from, the software is strictly prohibited. Additionally, this document may contain descriptions of software modules that are optional and for which you may not have purchased a license. As a result, your specific software solution and/or implementation may differ from those described in this document.

**U.S. GOVERNMENT END USERS:** Apttus software, including any operating system(s), integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are “commercial computer software” pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

Neither the software nor the documentation were developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Apttus and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.
