- [Resolved Issues](#): Lists customer-reported issues that are resolved in this release or known issues resolved from previous releases
- [Known Issues](#): Lists known issues that are applicable in this release

 This documentation may contain descriptions of software features that are optional and for which you may not have purchased a license. As a result, your specific software solution and/or implementation may differ from those described in this document. Please contact your CSM or AE for information on your specific features and licensing.

Packages

The following packages and dependent packages are required to upgrade to this release to utilize all the new features of this release. These are the *minimum* required versions; later versions are also supported. Separate prerequisites for each feature can be found in the respective guides. The packages marked as **(New)** are new packages in this release.

Product	Latest Certified Version <i>Version Name / Version Number</i>
Conga Approvals	8.0.0388 8.388
Conga Contract Lifecycle Management	8.5.0354 8.354
Conga CPQ Approvals	6.5.0067 6.67
Conga CPQ Maximizer	7.5.0026 7.26
Conga Deal Maximizer	6.5.0006 6.6
Conga Deal Maximizer Setup (New)	7.5.0046 7.46

i Before installing or upgrading Apttus managed packages, you must review the dependency matrix for each managed package. You can refer to the package dependency matrix at [Managed Packages Dependency Matrix](#).

System Requirements and Supported Platforms

The following table lists the minimum requirements for installing and using Digital Commerce.

System Requirement	Minimum Supported Version
Browser	<p>Apttus supports the following browsers:</p> <ul style="list-style-type: none">• Microsoft Edge• Google Chrome <p>Apttus recommends the latest version of the browser for the best performance. Apttus also recommends its customers to use Microsoft Edge as the browser of choice.</p> <div style="border: 1px solid #f0e68c; padding: 5px;"><p> Internet Explorer is not supported.</p></div>

New Features

There are no new features in this release. Keep checking the Apttus Documentation Portal for new updates.

Enhancements

The following section describes existing features that are changed (or are no longer supported) in this release.

- [Scalability Improvements](#)

Scalability Improvements

This release has made the deal guidance process a lot more scalable than it was earlier. These include:

- Support for thousands of rules and rule entries. For example, 5000+ rules with approximately 10 rule entries in each rule can now be made available in your org.
- A single query giving output up to 1000+ rule entries which are successfully applied into the cart.
- Restricted limit for seamless execution of the cart page to 1000 rule entries per cart. If you have some advanced criteria and scope for the rule entries and the limit of 1000 rule entries per cart has reached, then the pricing process on the cart page fails and an error message is displayed.
- The rules are associated with the Product Groups and the Product Families.

Get Started

For details on setting up deal guidance process, refer to [Define Deal Guidance Rules](#) in the *Deal Maximizer on Salesforce Spring 2020 Administrator Guide*.

Data Model Changes

This release does not have any data model changes for Deal Maximizer.

Resolved Issues

The following table lists the issues resolved in this release.

Case Number	Apttus Internal ID	Description
CAS-09996-H8W3V1	CPQ-41334 DEAL-163	More than 30 line items in the cart displayed SOQL errors. Refer to the Enhancements section above.

Known Issues

There are no known issues in this release.
